

Public

Ledger

MAYSVILLE, KENTUCKY, TUESDAY, JUNE 8, 1915.

ONE COPY—ONE CENT.

That man is great, and he alone, Who serves a greatness not his own, For neither praise nor self; Content to know and be unknown; Whole in himself.

THE SHOWS

The Gen presented an extra good program when they flashed "Who Pays" on the screen. This serial deals with the vital questions of life and is one of the most instructive on the film market.

The Pastime presented the king of comedians, Charley Chaplin, last evening. Charles pleased the large crowd of patrons who flock to this theater.

The Washington had a good bill of vaudeville, both acts being headliners in their class. The New Exploits of Elaine drew a large house, and judging from the applause the public still considers this among the best serials.

BIRTHDAY PARTY

Raymond Francis Felts entertained quite a number of his friends at his home on East Second street, Saturday afternoon from three to five, in honor of his sixth birthday. Music and games were in order and delicious refreshments were served. He received many useful and pretty presents, and his guests almost forty in number, left after a most pleasant afternoon, wishing him many more happy birthdays.

GOES TO ANNAPOLIS

Mr. John N. Browning, son of Mr. and Mrs. S. P. Browning, of this city has left for Annapolis, Maryland, to take the physical examination for entrance to the United States Naval Academy. Mr. Browning has passed the mental examination, and stands every chance of passing the physical one also. His father, Mr. S. P. Browning, of this city, accompanied him to Annapolis.

WONDER WHO IT IS

A prominent Second street business man, and a well known business lady, of this city, will be married in the next few days. Their marriage will prove a big surprise to their many friends.

Two nice front offices for rent in O'Keefe building.

M'DERMOTT SPEAKS TO LARGE CROWD

Lieut.-Gov. McDermott delivered a speech to a large crowd of the Democratic voters of this county, at the Court House, Monday afternoon. After a brief introductory speech by Chairman A. G. Sulser, of the Democratic County Committee, Mr. McDermott delivered a speech that stated in plain words, that his platform was against state wide prohibition from a taxpayers point of view. His speech was well applauded and many of the dyed in the wool prohibitionists joined in the applause.

SMASHED AEROPLANE SHIP-ED TO CHICAGO

Aviator Alvin C. Wilson, whose machine fell Sunday while giving a flying exhibition at Leagne Park here, shipped the damaged plane to Chicago on Monday. While the engine was not injured, Aviator Wilson says it will take over \$700.00 to repair the machine for another flight. The accident Sunday was the narrowest escape Wilson has ever had, and many who saw him fall, declare that he was born with a horseshoe about his neck.

POLICE COURT

Amanda Dempsey, a lady of color, was fined \$10.50 for street walking. Amanda was arrested Saturday night by Chief of Police Mackey, who says that he will continue to drag the streets for persons of questionable character until he risks Maysville of the pests. He says it would be advisable for such persons to beat a hasty retreat when they see an officer coming and to remain in doors after 9 o'clock, as he has given special orders to arrest people who are roaming the streets, seemingly with nothing to do.

ACCEPTS POSITION

Mr. Robert B. Owens, of this city, left Monday morning for Lexington to accept a position with the Van Deerin Hardware Co., of that city. Mr. Owens is a well known hardware man having been in that business in this city for a number of years, and the Van Deering Co. did well in obtaining his services, for he knows the hardware business from A to Z. The Ledger wishes Mr. Owens success in his new undertaking.

Mr. John Kilgore, of this city, was operated upon at Wilson Hospital Sunday by Drs. Reed and Skinner of Cincinnati. He is resting easily this morning.

SUES FOR DIVORCE

Mrs. Laura Dunn Brings Proceeding and Obtains Restraining Order Against Her Husband, James Dunn, Who Makes Assignment

Late yesterday afternoon in the Mason Circuit Court, Mrs. Laura Dunn, through her attorney, Messrs. Worthington, Cochran & Browning, filed suit for a divorce from her husband, James Dunn, who operates a grocery on East Third street, and was formerly a conductor on this division of the L. & N. R. R.

The plaintiff charges confirmed drunkenness of not less than a year's duration; cruel and inhuman treatment; wasting of his estate and that he has threatened to do her bodily harm.

Judgment for divorce is prayed for and the plaintiff asks for a general order of attachment on the property of the defendant and that he be restrained and prohibited from disposing of the same or molesting or interfering with the plaintiff, who further asks for the custody of the children and that she be awarded a reasonable allowance for their support together with a reasonable sum as alimony for herself and for her costs and attorney's fee.

Before the Sheriff had served the restraining order asked for, Mr. Dunn filed a deed of assignment in the Mason County Court assigning all of his property to the Equitable Trust Co., of Dover, and Messrs. M. J. Donovan, W. T. Cummins and J. R. Devine, were appointed to appraise the estate under the assignment.

BALL CLUB MEETS

The Maysville Ball Club held a regular meeting last night and transacted considerable business of importance. The resignation of Mr. C. E. Dieterich, as secretary-treasurer, was received and accepted. The resignation of Manager Lee Dresel was also received and accepted. Mr. Dieterich will continue as secretary temporarily until the club elects his successor. Mr. James Frost was elected manager and president to succeed Mr. Dresel.

The change in management indicates that there will be changes in the line up, and it is to be hoped the boys will put up a good classy game of ball. Maysville has the players, and there is no reason why the fans will not support a good amateur team.

TIMOTHY O'CONNELL

Timothy O'Connell, aged 80, passed away at his home in East Sixth street this morning at an early hour. Mr. O'Connell was born in County Cork, Ireland, and came to this country at an early age. He has resided in this locality for years and he was a Civil war veteran, serving with the 18th Ohio regiment throughout the war. He is survived by six children, five boys and one girl, John, Timothy, Joseph, Daniel and William, and Mrs. James Maley, all of this vicinity. The funeral will take place from St. Patrick Church on Thursday morning at 9 o'clock. Burial in Washington Catholic cemetery.

BALL GAME FOR BENEFIT OF HEALTH LEAGUE AUTO

The druggists and physicians have organized base ball teams which will play a game of ball some time next week for the benefit of the fund for the automobile for the Health League.

Mr. Wm. Derr is captain of the druggists and Dr. A. R. Quigley is captain of the physicians. The date of the game will be announced later and a good game is promised. Every one is urged to go to this game and help the worthy cause.

Mr. Abe Galanty, who has been attending school at State University, Lexington, has returned home to spend his summer vacation with his parents, Mr. and Mrs. Meyer Galanty, of West Second street.

Mrs. Lee Cox, of Portsmouth, Ohio, was called here by the illness of her daughter, Mrs. John Farwick, who was operated upon at Hayswood Hospital Saturday.

The Ladies Aid Society of the First Baptist Church will meet in the Sunday School room at 2:30 Wednesday afternoon. All members urged to be present.

Miss May Harrop, of Latonia, is spending a few days with Miss Emma Nolin.

Building Material

Don't be misled by buying low grade building material at high prices. We have the largest and best assorted stock, and the best equipped planing mill in Northern Kentucky, and we positively guarantee our prices as low, if not lower, than anywhere in the state, considering quality.

You will be pleased when you make your purchase from
THE MASON LUMBER COMPANY, LEADERS
CORNER SECOND AND LIMESTONE STREETS. PHONE 519. MAYSVILLE, KY.
A. A. McLAUGHLIN. L. N. BEHAN.

COMMERCIAL COURSE

Popular—Necessitates Change of Teachers in High School.

From the many favorable expressions, we are anticipating a great many of our High School students to elect commercial studies as a part of their regular High School course the ensuing year. The commercial teacher will take the place of the extra teacher, Miss Inez Laten, who was employed last year to relieve the over-crowded classes. Miss Laten has done efficient work for us, and we regret losing her, but the change to commercial work necessitates the employment of a teacher especially equipped along commercial lines.

CIRCUIT COURT

J. H. Hawkins, through his attorneys, filed suit against The Bates-Rogers Construction Company, who are building the Lock Dam No. 33, above this city, for damages amounting to \$3,000, resulting from injuries sustained while at work on the dam. It will be remembered that Hawkins is the man who was hit by a crow bar on May 21 and badly hurt.

WORRIED BY DOPE FIEND

The police officials were notified early this morning that a supposed dope was bothering night operator Black at the C. & O. depot in the West end of this city, but when they arrived the man had disappeared.

LOVELY

To say we have a large stock of wash frocks is accurate but inadequate. To say they are unusual is true but trite. Lovely is the only word for them. And despite that fact, they are really inexpensive, \$3.98 to \$12.12.

A World of Voiles

Exactly the kind of soft cotton material that makes lovely but inexpensive frocks. 25c, 35c, 50c yard.

Youthful Models

These pretty lingerie dresses will make any woman look younger than her years. Soft tones of sand, neutral blues, delicate pinks. Cut to suggest the straight erect poise of youth. And such easy prices. \$3.98 to \$12.12.

GOVERNMENTAL FINANCES

When the Democratic party is out of power it denounces Republican extravagances, and demands a more economical administration of the Federal government. When it is in power it expends the public money like a drunken sailor.

A recent report from the treasury shows that the available working capital of the government had fallen from \$139,652,960 on the first of July, 1914, to \$42,759,689 on March second, 1915. An excess of expenditure over revenue of more than Ninety Six Million Dollars in eight months. In other words the treasury department is running behind at the rate of more than Twelve Million Dollars per month, and when the balance on hand shall have been exhausted which, at this rate, will come to pass in less than four months from March second, or about the middle of the present month, a new issue or some other means of raising money will be inevitable.

How futile it will be to create new governmental institutions, and to what avail where the expenditures are already so far in excess of the revenue which is to be still further reduced, by more than Fifty Million Dollars per annum, when sugar takes its place among those other commodities that are honored with positions upon the free list.

It may be said that the administration is not altogether to be censured for this as public expenditures are in the hands of various committees of Congress, each working for its own interest and ignoring the others, but neither can the administration be held blameless, for those committees are administration committees and most certainly the tariff act, which is as much responsible for the muddled condition of the national finances as any other one thing, is an administration measure.

This state of affairs can not be charged back to the people on the ground that they elected a Democratic administration upon a platform containing among other provisions almost as disastrous, the fatal tariff reduction plank, for it must be remembered that at the last election there was a division in the Republican party which has since been reunited, and that while the majority voted against these deplorable conditions, the vote was divided between two candidates thus casting the

election to the minority party which can not shift the responsibility for conditions arising directly as a result of its doings.

It is hardly to be supposed that the incoming congress will undo all of the acts of its predecessors, and yet without such undoing the government finances must grow worse from month to month.

There is but one complete and positive cure for these conditions, and that is to restore the Republican party to complete power. The remedy which will effect that cure will be administered by the people at the coming election.

We know one man who doesn't repent the entire things his baby says, and that's due entirely to the fact that he hasn't got a baby.

The person who is reduced to the extremity of claiming that the world owes him a living usually is overdrawn in his account.

A girl can sometimes forgive a man for having flirted with her; it's for stopping flirting before she does that she stores up resentment against him.

In this country the exercise of the right of free speech often results in a lot of fool talk.

Providence is blamed for a lot of things that men ought to be punished for.

If the joke is a good one it is better to laugh last than not at all. There is nothing more humiliating than to be unable to see the point of a good joke.

This world is full of strugglers. Many are struggling to support an automobile, and now we see a lot of people struggling to make automobiles support them.

A Quibble.

John B. Stanchfield, the noted lawyer, was discussing in an interview in New York the case of his client, Harry Thaw.

"But objections like that," said Mr. Stanchfield, "are mere quibbles. They have no real bearing on the case. Like the farmer's wife, they only confuse and embroil matters."

"A sickly farmer said to his husky wife one spring morning:

"I see by the papers that a woman down Paimin Rock way goes out every morning and hoes with her husband."

"Well, what of it?" the wife answered. "She could do it easily enough if he's as thin as you are. I've often thought of using you to peel potatoes with."

PECOR'S DRUG STORE, 22 West Second Street

GOOD HOUSEKEEPING IS THE ROAD TO ECONOMY.

Light Summer Housekeeping

Spring winds, warm sun, fresh air and bright sunshine all tempt us to wholesome outdoor living, and how good it would be if all women would spend hours outdoors each day. But work does not do itself and many housekeepers feel they must be content with mere peeps at spring through open doors and windows.

We are taught that work is something that was sent into this world as a punishment for sin. And we do it with sighs and make drudgery of what might be glorious exercise if we only had a better point of view. The next generation will manage these things differently. They will know that household administration is a profession that opens every avenue of self-expression and original thought. Then every woman, old, young or middle aged, will believe that they have the best job in the world, and laugh to think that tasks of managing a home were once dubbed "menial" or "drudgery."

The wonderful modern inventions for cleaning, the new styles of furnishing, sensible methods of eating and sleeping are all bringing these changes in our attitude of mind. But most of all, our young girls are responsible for it. So many thousands of them are interested in domestic science. They have it in the public schools and all colleges offer such courses and, naturally, they put school work into practice in their homes.

A trained homemaker finds time for outdoor enjoyment by changing her methods of work with the seasons. Heavy, warm furniture, thick hangings and deep upholstered chairs were comfortable in January. This month polished floors, matting, wicker rockers and thinnest of curtains save time and give the same comfortable feeling of appropriateness.

It is not possible for every family to change their furniture as they do their clothing, but there is some seasonal change for each to make. Perhaps it will be a tent in the backyard or a vine-covered pagoda made of clothes props and morning glory vines. Or you may screen in your porch and spend long happy days on it from June to October. The front porch may be your living room, reception hall and parlor in one, the side veranda your dining room and nursery, and as for a kitchen you can do plenty of cooking for hot weather with an ice cream freezer and a fireless cooker.

A WORD WITH WOMEN

Valuable Advice for Maysville Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this Maysville woman's convincing statement:

Mrs. Dora McFord, Maysville, Ky., says: "I had been feeling poorly for some time, before I knew that my kidneys were at fault. I was nervous and dizzy and my back and head ached. I rested poorly and mornings I was all tired out. I read in a local paper how a neighbor had been cured of kidney trouble by Doan's Kidney Pills. I used them and before long I was a great deal better. I was able to sleep well and they improved my health."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McFord had. Foster-McIlburn Co., Props., Buffalo, N. Y.

M. C. RUSSELL CO.

There is something wrong with the fellow who boasts that he hasn't an enemy in the world.

CROP REPORT ISSUED JUNE 5, 1915

The reports of the various correspondents throughout the state show that the April drought continued into the early part of May, but the most of May has been cold with an excessive rain fall. Storms and cloudbursts have been frequent and in places great damage has occurred. The wheat crop shows a condition of 78 per cent. Much of the wheat is thin on the ground, however, and no unusual crop can be expected. The oats crop shows a condition of 85 per cent. This crop did not get a good start owing to the dry weather, but bids to be more improved than the wheat crop. The average of corn is given at 101 per cent, with a condition of 29 per cent; condition of barley is given at 82 per cent, and condition of rye at 86 per cent. The average of Irish potatoes is 98 per cent, with a condition of 97 per cent. The inferior quality of the tobacco plants used and the dry weather damaging the beds have retarded the plant growth. The condition of the barley tobacco is given at 75 per cent, and that of the dark tobacco at 79 per cent. Pastures have improved very materially, their condition being given as follows: Bluegrass 84 per cent, orchard grass 89 per cent, clover 84 per cent, and alfalfa 95 per cent. Garden conditions are good showing a condition of 95

per cent. The condition of hemp has greatly improved, but the stand is thin on the ground. Average of hemp is given at 96 per cent, and condition 87 per cent. The condition of live stock is good showing as follows: Horses 93 per cent, cattle 93 per cent, sheep 92 per cent and hogs 91 per cent.

The splendid pastures are resulting in an extra quality of spring lands. Fruits show a condition as follows: Apples 79 per cent, peaches 74 per cent, plums 84 per cent, and blackberries 89 per cent. Heavy rains and cold damp weather have had a bad effect upon the young poultry of the state, and poultry conditions are given as follows: Chickens at 93 per cent, ducks 91 per cent, turkeys 89 per cent. Not a great amount of cow pens and soy beans have been planted. The condition of cow pens is given at 90 per cent and soy beans at 91 per cent. The ground as a rule has been too wet to work for the last half of May. Some of the corn is not yet planted. Ample time remains to plant cow pens and soy beans, and even corn planted at this time will probably mature satisfactorily.

Taken as a whole conditions have improved during the month of May, but some localities have suffered heavy losses from the downpour of rain that usually comes in April. The streams have overflowed in but few cases and crops in the bottom lands are in good condition. With reasonable weather, Kentucky should produce splendid crops, as a whole, during the year 1915. A reasonably good start has been made.

J. W. NEWMAN,
Commissioner of Agriculture.

They Look Alike

But—

The average cup of coffee contains about 24 grains of caffeine, a subtle, poisonous drug.

Coffee is cumulative, and day by day pounds away at nerves, heart and other organs, finally showing in biliousness, headache, sleeplessness, heart flutter, nervous prostration, etc.

A cup of

INSTANT POSTUM

has a flavour similar to mild, high-grade Java, but contains no coffee, caffeine, nor other harmful substance.

Postum—made of whole wheat, roasted with a little wholesome molasses—is a pure food-drink decidedly American, and is taking the place of coffee with thousands of people who appreciate health and comfort.

Postum comes in two forms:

Postum Cereal—the original form—requires thorough boiling to bring out its flavour and food value. 15c and 25c packages.

Instant Postum—the soluble form—is prepared in the cup *instantly* with hot water. 30c and 50c tins.

Both kinds are equally delicious—cost per cup about the same—sold by grocers everywhere.

"There's a Reason" for POSTUM

LOVES OF GREAT AMERICANS. Johnston Blakeley's Romance

A lonely little boy was sent, all by himself, from North Carolina to New York. This was in 1794. The journey in those days was far longer and more perilous than would be a trip to South America today.

The boy was Johnston Blakeley. His father, a merchant, had left Ireland when the son was only two. Since then the family had lived in Wilmington, N. C. When Johnston was twelve—a nervous, thin, shy little fellow—his father for some reason decided to send him to New York to be educated. So, like a bale of goods, the sickly youngster was shipped North to one of his father's colleagues, a fellow merchant named Hooper.

He had become a member of Mr. Hooper's New York household, going daily to school in Brooklyn. He was desperately homesick. The other boys laughed at his Southern accent and his old-fashioned ways. His one solace during the five miserable years of exile was the close friendship of Mr. Hooper's only daughter, Jane, a child a few months younger than Blakeley.

Jane and the Southern boy were both lonely, both different from their schoolmates. Instinctively they were drawn together by their mutual loneliness.

And as the years went on the childish friendship merged into a boy and girl love affair. Mr. Hooper was not averse to the match. For he had grown fond of the boy, and Blakeley's father was well to do.

But just before Blakeley was eighteen the incipient romance was cut short by his return to North Carolina, whither his father summoned him to study law. He bade farewell to Jane, promising to come back as soon as he should have the right to claim her. Then he went South—to trouble.

He had scarce begun his law course when his father died. And the supposedly rich merchant died insolvent. Penniless and without prospects, Blakeley left the study of law and became a midshipman in the navy. His chances of claiming Jane Hooper for a wife seemed very remote.

We had not much of a navy in those days, nor did the service offer much hope of advancement. Yet young Blakeley plugged away doggedly at his chosen career. By 1807—seven years after he had joined the navy—he was a lieutenant. In 1812 war broke out between the United States and Great Britain, a war to be fought largely on sea, and offering quick promotion to brave naval officers.

Blakeley rose to the rank of lieutenant commander. His pay was now sufficient for two to live on in strict economy. And at the first opportunity he went to New York, where Jane still loyally awaited him. There he and she were married in December, 1813, after an engagement of fourteen years.

The honeymoon was brief. Blakeley, who had already won fame during the first two years of the war, was put in command of the war sloop Wasp and ordered again into active service. For the next few months he and his ship were the wonder of two continents. One British man-of-war after another he sought out, fought and captured.

From an obscure sub-officer Blakeley sprang within a year into a national hero. Then, in the autumn of 1814, he ranged the southern Atlantic in search of the enemy. A ship that he captured in late September came into Savannah harbor with news of him. Another vessel, on October 9, sighted the Wasp under full sail.

And from that moment—a century ago—nothing was ever heard of Blakeley nor of the Wasp nor of any of the crew. They vanished, leaving no clue to their fate.

Blakeley was promoted to a captaincy, but he never knew of his promotion. The North Carolina legislature voted him a sword. The sword was reverently laid by the presentation committee on the cradle of the newborn baby daughter whom the hero father had never seen. And the legislature further voted unanimously "that Captain Johnston Blakeley's child be educated at the expense of the State."

Correspondence

Springdale

Memorial day was observed at Bethany, May 30th, with an all-day service. Regular Sunday School and worship of God occupied the morning hours and a few dedicated the inclement weather and brought basket dinner, but nearly everyone returned to their homes for dinner, taking visiting friends home with them. Promptly at 1:30 p. m. G. W. Cobb called the returned crowd to order and announced the opening hymn, "America."

Wm. H. Hook made the opening address and struck the keynote for the entire day's observance—"sacrifice for others, for country, for former enemies, for living associates, strewing flowers along the path." A recitation by Carlos Mason, "The Blue and the Grey," was followed by the singing of "The Battle Hymn of the Republic," by the audience. After a recitation by Leone Elliott, "The Dying Soldier's Farewell," Mr. L. C. Harrison spoke very interestingly of "Further Sacrifices," mentioning those of the women of war times, the sacrifice of time and talents given by Sunday School workers, so often unappreciated, and the greatest sacrifice of all—"Christ." Recitation by Edith Ryan, Mr. E. L. Cobb made a few appropriate remarks, saying that flowers and kind deeds to the living are far more effective than flowers upon graves. Recitation by Mary Lou Hord, "Decorating the Graves," Recitation by Emmitt Cobb, "Patriotism." Recitation by Clifford Phillips, "Blue and Gray." Song "Old Kentucky Home." Reading by Mrs. John Rash, "The Grand Army." Recitation, "The Last Hymn." Mrs. Harbysman Song, "The Soldier's Farewell."

Mrs. Rash, Mrs. Rosemer, Mr. E. L. Cobb, Speech, "Bearing one another's burdens." Rev. Tom Holt, Remarks by Bro. Wm. Sparks, the only Civil War veteran present. Recitation, Ora Berry, "Lincoln's Gettysburg Speech." Mrs. G. W. Hook, "Flag Drill." Leone Elliott, Lorene Hughes, Beatrice Weaver, Ellen Weaver, Ora Henderson, Lillian Vogel, Ed. Rash, Eds. Tulley, Charley Rash, Roy Hord, Harry Davenport, Decoration of graves. Song, "God Be with You 'Till We Meet Again." Benediction, E. L. Cobb.

HOME CARE OF MILK

Cows are now out on pasture, and milk is more easily produced under sanitary conditions than during the winter months when the cows are stalled continuously. Milk may be handled by the farmer in the most correct and sanitary methods known, and yet if it is not cooled immediately after milking and kept cool until consumed, it very soon begins to change and grow sour. In fact, the bacterial content increases rapidly as long as the milk remains above 50 degrees Fahrenheit. The bacteria are dormant or increase slowly at a lower temperature. For this reason, every precaution for keeping milk cold from the time it is produced until it reaches the consumer is essential, and especially so during the warm weather.

Milk may absorb impurities whenever it is exposed to the air, or placed in unclean vessels. The amount or degree of contamination depends on the cleanliness of the air and of the vessel. Even the air of a so-called clean room contains some impurities. If the producer and dealer have done their duty, there is left at the consumer's door a bottle of clean, cold, unadulterated milk. But the consumer also has responsibilities in handling milk so that it continues to be fit for consumption, especially as food for babies. The milk in the home may be placed in unclean vessels or exposed unnecessarily to the air, or not kept cool until the time of using. Thus things may happen to the milk affecting its quality, many of which are caused through carelessness.

Receiving Milk at the Home. The expression "a bottle of clean, cold, unadulterated milk" describes the kind of milk which should be delivered to the home. The method of dipping milk from large cans and pouring it into the customer's receptacle in the street with all the incident exposure to the air, not always the cleanest, is a bad practice. Drawing milk from the faucet of a retailer's can is almost as bad as dipping milk, although the milk is not ex-

posed to the air as long as by the dipping process. Besides the unsanitary part of this method, some consumers, unless the milk is kept well agitated, are likely to receive less than their proportion of cream. The custom of setting out at night an uncovered vessel which collects thousands of bacteria from the street dust before the milk is put into it, is obviously very unsanitary, and yet it is practiced to a large extent. If milk is to be received in a bowl or pail by the consumer, it is worth while to have it delivered personally to some member of the family, or if the receptacle is to be placed in waiting for the milk deliverer, it should be covered with a plate, or better still, a glass preserving jar may be used, in which nothing but milk is put. The jars with the glass tops are preferable; no rubber bands should be used.

Direct sunlight on the bottle of milk warms it rapidly, and increases the bacterial content. Milk which is delivered very early in the morning, say at 4 a. m., and remains out-of-doors until 9 or 10 o'clock, is very likely to become warm and less fit for human consumption than if it were taken in the house and placed in the refrigerator early in the morning.

Milk should not be transferred from the original bottle into another receptacle until just before consumption. The bottle should be kept covered with a paper cap, or an inverted tumbler as long as the milk is in it. Milk deteriorates by exposure to the air in the pantry, kitchen or nursery. Housewives are familiar with the ability of milk to absorb smells from string foods, like fish, cabbage, or onions. It is obvious, therefore, that such foods should be kept out of the refrigerator which contains milk.

If the milk is received in a bowl, pail, or other receptacle, instead of a bottle, the same rules apply to the keeping of the milk as those mentioned above for bottled milk. Milk from the grocery store or bakery which is kept in a can, open most of the time, and possibly without refrigeration, is to be strictly avoided.

Care of the Refrigerator.

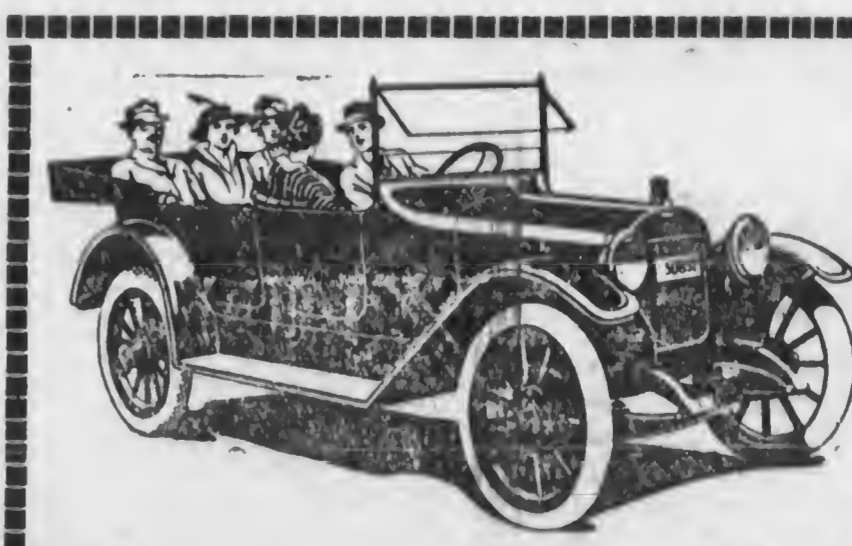

The refrigerator, unless kept scrupulously clean, often is itself a source of the production of bad flavor in milk. The refrigerator should be inspected at short intervals, at which times the outlet for the melted ice should be freed, the ice-rack cleaned, and the place where the food is kept scalded with soda solution. Even though the refrigerator is cold, a few drops of spilled milk, or a small particle of food neglected, will soon contaminate it.

Care of Milk Bottles and Utensils

Milk bottles are made for milk and not to hold sundry other foods. As soon as the milk bottle is empty, it should be rinsed with lukewarm water until it is clean, and then set bottom-side-up to drain. Bottles should never be returned in a dirty or filthy condition. All utensils with which

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We can help you, for it has helped many thousands of other weak in the past 50 years.

At all druggists.

KILLED THE LEVY

Anti-Administration Forces in Council Refuse to Accept the 30 Cents Raise in Taxes—Want Them Reduced to \$1.25

At the regular monthly meeting of the City Dads last night there was a full hand in Council and full house of spectators, with Mayor Lee presiding.

The Mayor reported that he had collected \$79.37 on licenses during the last month.

Superintendent Phister reported 2 collections.

Superintendent Curran's report was as follows:

Balance last month	\$1,935.00
Receipts	2,045.90
Total	\$3,980.90
Expenditures	3,929.76
Leaving balance	\$51.14

The Board of Education reported the estimated receipts and expenditures for the year 1915-16 as follows:

Receipts	\$8,652
Expenditures	29,837
Bonds	6,000
Interest	3,120
Total	\$37,600

A communication, signed by "The Fleming Pike Improvement Committee," was read, as follows:

"What would YOU do if you had paid \$58.20 to oil your street and the Maysville Water Company dug it up the next day and washed all the oil off and made the gutter even with the pavement?"

It was referred to the Proposition and Grievance Committee with power to act.

The Claims and Accounts Committee reported as follows:

Alms and Almshouse	\$319.42
Pensions	76.00
Public Library	25.00
Mason County Health League	25.00
Mission Home	25.00
Colored School Mission	6.25
Gas and Electricity	721.09
Boarding and guarding city prisoners	196.40
Miscellaneous	35.43
Salaries	279.11
Police	447.86
Brick streets	134.50
Greenwood Library Fund	47.43
Internal Improvement	604.07
Fire Department	410.47
Council salaries	159.00

Total \$3,514.65

Building permits were granted as follows:

I. F. Chanslor, brick bungalow, corner Lexington and Second Sts., Sixth Ward.

J. C. Burwell, bath room over back porch at residence on East Second street, Sixth Ward.

Jennie and Laura Potter, one-story kitchen with metal roof on Walnut street, Fifth Ward.

The Fire Department reported that it had responded to one

alarm and one still alarm during the past month.

Engineer Glazier was allowed \$145 for extra expenses and Harry Otto \$35 for the same.

The Board of Health reported the sewers emptying into the Ohio above the water works pumping station a menace to the city's health, recommended their removal but not until the city had made provision for ample sewers for these people to tap into. This report was received and concurred in.

The bid of George H. Traxel to put in a standpipe at the Almshouse was \$74, and Larry Lange-fels, \$96. They were referred to the Fire Committee, which was given power to make the contract.

And right here is where the administration forces got a severe jolt. The ordinance fixing the tax levy for 1915 at \$1.55 was read. When the vote to receive it was taken the result was a tie. Members Cullen, Crowell, Gantley, Fleming, Easton and Hunsicker voting no, and Members Keith, Everett, Foster, Greenlee, Arn and Hendrickson voting yes. Mayor Lee broke the tie by voting to receive the ordinance. Upon a motion to suspend the rules and place the ordinance on its passage which required a two-thirds vote, the result was 6 to 6, and the Mayor declared the motion lost.

As there must be some means of getting money the Ways and Means Committee was given a week to cut expenses and bring the levy down to \$1.25, where the anti-say it should be.

The Gas Company presented to Council its check for \$1,291.31, for rebate for the period from June 1914 to June, 1915.

An ordinance was read permitting the Street Railway Company to remove their tracks from the west side of Bridge street to the center of that street, and from the north side of East Second street to the center of the street, was read and received by a vote of 8 to 4. Upon a motion to suspend the rules it carried by the same vote. Motion to adopt this ordinance carried.

The proposition of the Street Railway Company was adopted by a vote of 8 to 4. It is as follows:

To the Members of the City Council, Maysville:

The ordinance authorizing the construction of a brick street in Bridge and East Second streets, from the corner of Third street and Bridge street in the Fourth Ward, to Canal street, in the Sixth Ward, provides that the six inch bed of concrete beneath the tracks of the Maysville Street Railroad and Transfer Company, extending out on each side of the ties twelve inches, is to be paid for by said company, and the plans as prepared by the City's Engineer contemplate the removal of the tracks in the Sixth Ward from the place they now occupy on the north side of the street to the center thereof, and also the removal of the tracks on Bridge street in the Fourth Ward to the center of the street, and the removal of the tracks at certain places in the Fifth Ward.

The Company does not admit that it can be required to do either of these things, and the expense to which it will be put is considerable, at least Twelve Thousand Dollars.

The Company, however, is anxious to co-operate with the city in the proposed improvement, and will agree to the requirements of the ordinance and the proposed changes in location of tracks as shown by the plans, provided:

1st—The sand and gravel that has been put in under the street car tracks by the Company belongs to it, and so much thereof as is merchantable and suitable in the judgment of the City's Engineer, for the purpose of constructing the street in accordance

GEM

COMING WEDNESDAY

Charles Chaplin in The Park.

with the plans and specifications made part of the ordinance, shall be sold to and paid for by the contractor at what such material is worth delivered on the street. The Company shall have the right to have deposited in any side street most convenient to the contractor any sand or gravel which may be rejected by the City Engineer.

2nd—When the contract is made with the contractor, it shall be specified that not more than a section of one thousand feet of the work shall be done at any one time, and in the actual construction of the street, one side thereof and that portion of the street occupied by the street car tracks shall be finished first, and while this is being done, the street car company shall have the right to use the other side of the street for a by-pass or sidetrack, connected to its main track at either end of that portion of the street being improved, with portable surface turn-outs. The purpose of these provisions is to enable the street car company to maintain a continuous operation of its car line.

3rd—The city shall, by ordinance, recognize the right of the Company to occupy with its tracks that portion of the street to which the tracks are to be changed under the plans and specifications, in the same manner and extent, and for the same length of time, and with the same rights, and under the same liabilities as it now occupies that portion of the streets in which these tracks are at present located.

June 7th, 1915.

Maysville Street Railroad and Transfer Company.

By Horace J. Cochran, President.

Member Cullen asked that Second street, between Wall and Cox's alley, be fixed, and that the entrance to the C. & O. yards be attended to.

The Assessor was allowed his salary—\$250.

The pavements that have become defective were ordered repaired by Street Commissioner Smith.

Member Fleming asked for a light on the L. & N. near the bridge, and was referred to the Light Committee, with power to act.

A light was ordered placed in the rear of the jail.

Six emergency bonds were ordered issued.

Member Arn moved that Engineer Glazier be instructed to make a map for sewers on East Second street, which carried.

The Limestone bridge proposition came up and the bridge contractor stated that it would cost \$1,500 to repair the structure, laid over to the July meeting.

Member Easton called attention to the small drain on East South street, and moved that something be done to keep the water from overflowing in the Second Ward. It will be attended to.

He also called attention to the sewer on South street, between Market and Limestone. The turn street on West Third street was reported in bad condition by Mr. Easton.

Member Gantley asked that the pond in the rear of the Government building be oiled to get rid of the mosquitoes and then to place line there. It will be attended to. Mr. Smith will attend to the dumps.

The bids for the construction of brick streets were opened and as the bids were made on two kinds of filler Council voted to accept the tar filler and crushed concrete. The contracts allowed were as follows, Farrow & Co., of this city, and Ruh & Schmidt, of Covington, being the successful ones:

Sulton street—Farrow & Co.	Price \$6126.30.
Market street—Farrow & Co.	Price \$3382.00.
Third street—Farrow & Co.	Price \$1364.80.
Bridge street—Ruh & Schmidt & Co.	Price \$4106.00.
Second street from Limestone street to Bridge street—Ruh & Schmidt & Co.	Price \$10,866.00.
Second street from Limestone

Ford

Averaging about two cents a mile in daily use, Ford cars are a necessity to every business man, doctor, salesman or farmer. And they serve the family just as well. Every man is his own mechanic with a Ford. No need of high priced experts. And Ford "After-Service for Ford Owners" is a good thing to remember.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August 1914 and August 1915.

Touring Car \$490; Runabout \$440; Town Car \$690; Coupelet \$760; Sedan \$975, f. o. b. Detroit with all equipment.

"Walls of Jericho."
In five parts, featuring Edmund Breeze and Claire Whitney. Another one of those great Fox features in 300 scenes. Better than "A Fool There Was" and "Kreutzer Sonata."
